

Learning Blog

P A D A R N

What an amazing start to our new school year in Dosbarth Padarn! We are all happy and have settled back into nursery very quickly, welcoming our new friends to our class. We have explored our new environment and have learnt our class rules and routines.

On our arrival back, we discovered that everything in our beautiful, nursery garden had died. God's brilliant creation, was looking very sad, so we decided to think and plan how we were going to tidy it all, and bring it back to life. We explored the space and decided what to do next. First of all, we put everything back in its place. We pulled out the weeds and dead plants and planted new ones. We watered them and started to learn how to take care of them.

Section Three

We've also enjoyed looking for signs of autumn and collected conkers, autumn leaves and apples. We learnt that the leaves change colour to red, yellow, orange and brown. We have enjoyed drawing some of these and Mrs Bugler has also taught us a song 'Autumn leaves are falling down'.

We lay down under the trees in our garden and looked and listened. We saw leaves and bunting blowing in the autumn wind. We heard our beautiful wind chimes. We've enjoyed playing outdoors in our areas of learning, on such beautiful, sunny, autumn days. We've even asked the builders for some wood to create a flower border, and have started to collect willow, and create a fairytale land tunnel in our garden, and we have learnt to weave the willow.

We have also started our inquiry, 'No matter what--- We all belong'!
We hope you have a wonderful weekend!

Goes down to here.
