

Creating dens

Fast cars

Choo Choo!

Car parking

What a wonderful start to the new school year in Dosbarth Padarn. We have settled in very quickly and have already made lots of new friends. We are all very happy and eager to learn new things. We have been excited to explore the different areas of learning in our classroom.

We have chosen our favourite areas to play in. We have been busy creating in our art studio. The mark making area has been popular, using our different tools and our imagination to create magnificent drawings. In the small world area we have worked together to create homes and dens for our woodland animals, using sticks and logs. We enjoyed learning the names of the woodland creatures. We've also enjoyed the train set, creating different routes for the people to visit different villages.

September*

Look what we found!

Matching our skin tone

We love our block area, where we created a multi storey car park and even built ramps for our cars to travel up and down.

We have explored the outdoors and our forest school area. We had fun together looking carefully to see what we could find. To our delight we found a newt! We learnt that he moved very fast along the undergrowth. We also enjoyed a workshop from Mr King - 'The Childrens Musical Adventures!' We had fun learning to play the drums using the stick softly and loudly.

I Like Myself!

Bang goes the drum!

We have started our new inquiry 'Pwy ydw I?' We've enjoyed learning about ourselves. We have already learnt that we are all different and unique and we all have different colour skin tones. Some of us have darker skin. Mrs Bugler made us play dough in all different colour skin tones. We have learnt to create our faces using play dough and loose parts, paint and natural materials, which we collected from our nursery garden.

What a fabulous month we've had, Mrs Bugler is very proud of us all!
