

Learning Blog

TEILO

As part of our inquiry, we had a fantastic time at the All Nations Centre for the Pbuzz Celebration. It was a wonderful experience and we loved being part of such an exciting event. We have also been busy writing our script in preparation for our Sharing of Understanding on Wednesday. We can't wait to sing and perform in front of our parents and guardians! We really enjoyed taking part in the competitions for our Eisteddfod and had a brilliant day celebrating together. Bendigedig, pawb! Lots of us went to the cross country at St Illtyds and had a great time!

In Numeracy, we have been learning all about money. We practised recognising and naming different coins and notes, thinking carefully about their value. We worked on adding amounts together, making totals in different ways and solving real-life money problems. We also learnt how to subtract amounts to work out change.

In Literacy, we have been writing instructions inspired by The Magic Hat Shop. We learned how to use time connectives, imperative verbs and clear, numbered steps. We then designed and made our own magical hats, thinking carefully about detailed instructions so others could follow them.

We also explored the Welsh legend of Pwyll from the The Mabinogion. After learning about his adventures, we created our own comic strip versions, using speech bubbles and captions to retell the story in an exciting way.
