

*Sharing*

*Sandwich preparation*

*How many do we need to make?*

*Teilo  
November*

*Teamwork  
bakers*

It has been a busy and successful month in Dosbarth Teilo and we were delighted to share the highlight of it, our Afternoon Tea, with you. It was brilliant that every family was able to attend and share our learning. It brought to a close our Inquiry where we have explored many reasons for different diets. We put our skills to good use, baking, making and decorating. Our taking action took the form of designing a healthy lunch box which we submitted to a national competition with Warburtons.

Our creative talents have also been evident through our PHSE studies where we have learned and recorded friendship and anti bullying songs.

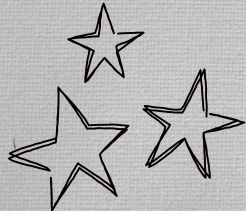

*Who's hungry?*

*Careful measuring*

*Proud of our learning*

*What a spread!*

Our literacy focus has taken us through texts where we have written a diary entry as a prehistoric child, a prequel imagining we would live forever and rhyming couplets poetry about disasters befalling small children!

We have continued to become problem solvers, using Maths No Problem to tackle the 3, 4 and even 8 times tables. We are becoming more confident explaining how we are finding solutions and realising that getting the answer is only part of the skill. We are using Winning With Numbers to develop our mental maths and speed of recall. Remember just a few minutes a day of this and Nessy or IDL at home will be invaluable.

We have enjoyed alternate weeks of netball and football skills and we are looking forward to putting these skills into game situations.

Christmas is fast approaching and among our preparations we are busy exploring our RE Gospel inquiry.
