*Teilo  
September*

*Composing*

In the blink of an eye September seems to have come and gone and we are already deep into our Autumn term of learning in Dosbarth Teilo. We spent the first two weeks exploring our class book 'Every Child a Song' which gave us plenty of opportunities get musical and use our art skills. We particularly enjoyed using Songmaker to make our own compositions. We thought about the theme of Belonging, identifying what makes us feel part of our class, our school and the qualities we would have at home to welcome a visitor. We brought our learning to a close with a wonderful prayer festival where we lay silently and reflective, looking to the skies to think about things for which we would like to thank God.

*Paws for Thought*

*Reflection*

We have begun our maths learning this term using Maths No Problem, a new approach to help us become masters of Problem Solving. We have explored number sequences, counting in 10s, 100s and using place value.

Our Literacy focus for the first couple of weeks has been letter writing. We have learned and applied the skills to write formal letters based on letters written by our favourite characters from traditional tales. We have been learning how to change the style, tone and language depending on the audience and recipient.

This week we took a leap into European Languages Day and we enjoyed learning some Spanish words, greetings and a song which we will be polishing over the next few weeks. Sobresaliente!

Our inquiry focus this term poses the question 'What factors determine our diet?'. The food diaries completed at home have been really useful, (we promise we are not judging!) We have looked at families around the world, their weekly shopping, their budgets and thought about questions we would like to explore. We are looking forward to sorting out all the information we have found so far.
