As we come to the end of our first half term in dosbarth Teilo we can reflect on a successful start to the year for many reasons.

We have really enjoyed our Inquiry considering different diets and the factors which influence them. We had a super visit from the Healthy Schools co-ordinator and found out some amazing and shocking facts about the sugar in our food. We also used our thinking skills to diamond rank different foods and we compared the costs of brand names v supermarket own brands. It has helped us all plan our event for after half term to share our learning with you. More to come soon!

We were pleased to be able to share our Harvest service with you to display our knowledge and also our fast developing oracy skills. Mr Ward was very proud!

IT to support Spanish

We have made great progress already with our maths learning which is all based around problem solving. We are already starting to see brilliant examples of children thinking through problems and being able to articulate their reasoning. This is a new approach to well known topics such as place value, addition and subtraction, but set in real life situations. This augurs well for future learning as the problems become trickier.

We have gained good experience in literacy too, writing letters, diary entries, instruction writing, designing posters, using ICT to support our learning and brushing up on some key punctuation and grammar.

We have continued to explore the Spanish language, including singing and making links to learning Welsh - all very complicated, but the children have embraced it enthusiastically! In PSHE we have devoted a lot of time to thinking about being ourselves, our roles as individuals and also being part of our class and wider school community.

We are looking forward to building on this after half term, but for now we wish you a well earned and enjoyable break!
