In Maths, we have been diving into the world of measurement, exploring the concepts of weighing and volume. The students have been hands-on, measuring everything from classroom objects to a variety of liquids using a range of measuring beakers!

Meanwhile, in PE, the class has been honing their hockey skills, mastering the art of passing and dribbling. To top it all off, they've been practicing their folk dancing moves, getting ready to shine at our upcoming Eisteddfod. It's been a term full of learning, movement, and fun!

Our literacy adventures have been magical! We delved into the world of Internet safety with the books *Troll Stinks* and *#Goldilocks*, learning valuable lessons on how to stay safe online. Our class then crafted their own instructions on Internet safety, perfectly timed for Internet Safety Day on February 11th. Now, we're journeying through the enchanting Welsh tale *Merlin Awakes*, and the class is absolutely spellbound by the magical adventures. 🌈🌟

We have been making beautiful music during their weekly violin lessons, where they've been enthusiastically practising plucking the strings and playing a variety of songs and tunes. In our inquiry lessons, the pupils have been time travellers, comparing the opportunities they have in school now to those in past eras. They've particularly enjoyed exploring the evolution of computers and how their use in schools has transformed over the years.

We Learn, We Play, We Care, We Pray.
