DYFRIG

We began our new inquiry by looking at the way Cardiff Bay has changed over the years, looking at land use and the people who live there. We debated whether it would have been better to live there in the past or now. The highlight of the term was our train trip to the Bay where we were able to see first hand and compare the Pierhead Building and Norwegian Church with the Senedd and the Millennium Centre. Of course we had to visit Cadwalladers before our return trip! It was a great experience to take a train trip and read timetables.

Dosbarth Dyfrig have had a busy start to life in year five as the first month has flown by. We spent the first two weeks thinking about our school values, what makes us unique and what are our hopes, dreams and future aspirations. We used the text Only One You to create some beautiful artwork and reflective journalling in our class floor book. We even learned a new worship song to teach the school.

We have started a new writing journey putting ourselves into character to develop descriptive writing, use idioms and describe emotions. We are using Maths No Problem to develop our reasoning skills, starting with place value of 6 digit numbers. We are also excited to get back out to Forest School, making elder jewellery, and leaf patterns. In PE we are enjoying learning new tennis skills and we have done some great problem solving and team games.

We Learn, We Play, We Care, We Pray.
